Manufacture of **DI-Ethyl Phthalate (DEP) & Fine Chemicals**

- Prompt Services
- Presence Across the World
- In House Quality Testing Lab Facilities
- Excellent Quality With Customer Satisfaction

Welcome to Shree Vitthal Chemicals

Shree Vitthal Chemicals is a company founded in 2011 for the manufacture of di-ethyl phthalate (DEP) and fine chemicals in specialty phthalate chemicals to cater to the ever-growing demand of the chemical industry worldwide. Shree Vitthal Chemicals is an ISO 9001:2015-certified company. Also, we are registered members of Intertek India Pvt. Ltd. Which is an international standard laboratory.

We are quality supplier of chemical products and services with capabilities including world-class manufacturing facility, in-house quality testing lab, bulk liquid and solids storage and handling facility near Karad. We have strong relationships with both domestic and foreign producers of chemical raw materials, packing materials and allied services which ensure an uninterrupted supply of necessary goods and services even during tough economic conditions. We will continue to strive for excellence and reliability in years to come to make us the most preferred supplier of goods and services among our customers.

We at Shree Vitthal Chemicals, offers flexibility in product specifications, packing preferences and labeling requirements to suit ever changing needs of customers and enable to stay ahead in their product line among competitors.

OUR PERCEPTION

Vision is to be become global champion in its sector by serving better value added services to you as our valued customers. Up to their satisfaction within time and budget.

OUR EXPEDITION

Our mission is to be serving the premium quality material to our customer to meet their required end product result. We believe and invest in research, development and giving innovative solutions for all the customer needs. Continue interaction with our customer by giving them our innovative ideas and product with a competitive price.

OUR PRODUCT

DI ETHYL PHTHALATE (DEP)

Diethyl phthalate (DEP) is a phthalic ester. It is a colourless liquid without significant odour but has a bitter, disagreeable taste. It is more dense than water, insoluble in water, and soluble in most organic solvents. Diethyl phthalate is used as a solvent and vehicle for fragrance and cosmetic ingredients, as well as an alcohol denaturant.

Molecular formula	C ₁₂ H ₁₄ O ₄
CAS No.	84-66-2
UN. NO:	3082
EINECS NO	201-550-6

Specifications:

DESCRIPTION	SPECIFICATION
Physical Appearance	Clear Colorless
Odor	Faint, Very Mild
Color HU APHA (Max)	25
Solubility	Soluble in alcohol, Aromatic Hydrocarbon
Specific Gravity at 20 °C	1.11-1.12
Residue on Evaporation % by wt/wt (Max)	0.01
Acidity as Phthalic Acid % by wt/wt (Max)	0.05
Purity by (GLC) % wt/wt (Min)	99.50
Water content % by wt/wt (Max)	0.15
Refractive Index at 20 °C	1.501-1.502
Dynamic Viscosity (Milli poise) at 20 °C	12-14

Packaging:

We can supply DEP in HDPE barrels, MS, and GI drums. Size and specifications are given below.

Drums:

- ❖ **Capacity:** 225 Kg
- ❖ **Height:** 930 mm
- ❖ **Belly Diameter:** 590 mm
- ❖ **Carboys Capacity:** 35 kg

IBC Tanks:

- ❖ **Capacity:** 1 MT
- ❖ **Height:** 1170 mm
- ❖ **Base:** 1200 X 1000 mm

- ❖ **Tankers Capacity:** 9 tons to onwards
- ❖ **ISO Tanks Capacity:** 22 to 24 MT

Carboys

Barrel/Drum

IBC Container

ISO Tanks/Tankers
